AXIOM®— Vector Trim

Armstrong®
Key Selection Attributes

- A narrow vertical "fin" on the profile creates a 1/4" recess to echo the 1/4" reveal of the Vector™ ceiling panel

- Incorporates the sophisticated grid-hiding visual of a Vector ceiling with a perimeter

- Extruded aluminum trim provides more crisp edge detailing compared to conventional roll-formed steel systems

- Compatible with Armstrong exposed suspension systems and Drywall Grid Systems

- Colors coordinate with Armstrong ceiling and grid systems; custom colors available

- Standard 90° factory mitered inside corner, new outside corner post

- Recommended for use with full size Vector ceiling panels; preserves factory cut Vector edge detail

AXIOM-Vector maintains the Vector reveal around the perimeter of the ceiling.

1/4" reveal is incorporated in AXIOM-Vector Perimeter Trim.
