What's new

Inspiring Great Spaces™

Armstrong®

CEILING & WALL SYSTEMS

WOODWORKS® Grille

NEW Now in crisp, White painted finish

- New painted White finish for maximum design flexibility
- Two standard and custom blade sizes available
- Easy to install in the ceiling, on the wall, or create 90° angled or faceted ceiling-to-wall transitions

armstrong.com/woodworks

Painted White finish is also available on WoodWorks® Solid Linear Panels

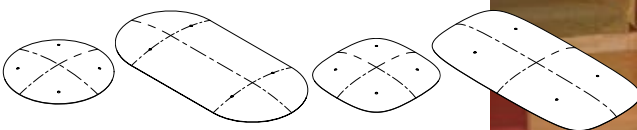

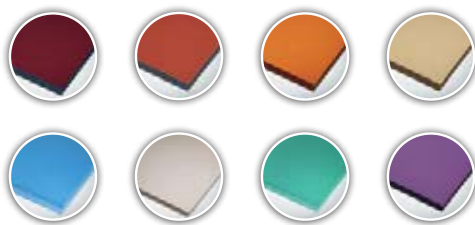

WoodWorks® Grille 2-1/4" in White

NEW INFUSIONS® Shapes

Floating clouds enhance translucent options

- Available in four standard shapes, two sizes – 48" x 48" and 48" x 96" – and a wide variety of translucent colors
- Add dramatic visual impact with multiple shapes or create a small accent area
- Unique shape designs can create a variety of visuals depending on the configuration or angle of installation
- Class A fire performance
- Seismic tested and approved

CALLA™

All around acoustics

- Calla offers the best bundle of acoustical performance attributes with a new, improved CAC of 32 in addition to an NRC of 0.85
 - Ideal for quiet concentration places or teaming and collaboration spaces
 - Smoothest mineral fiber ceiling on the market
-  ■ Now available in 24" x 48" Beveled Tegular panels

armstrong.com/calla

What's **new**

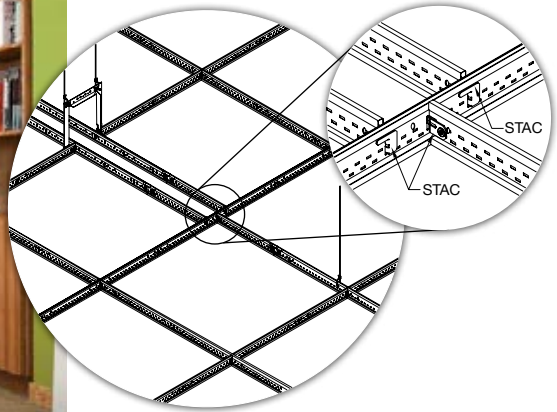

Ultima® Beveled Tegular 24" x 24" panels with Silhouette® XL® 1/4" reveal 9/16" suspension system and 4" linear light fixture

Ceiling Design Freedom

NEW Until now, integrating on-center linear lighting into ceiling layouts has been a challenge

- Now, continuous or discontinuous linear lighting is easy to incorporate into any design
- Use made-to-order, factory-finished panels and suspension systems for a perfect finished visual

armstrong.com/linearlighing

Ultima® Health Zone™ Tegular 24" x 24" panels

NEW ULTIMA® Health Zone™ ULTIMA Health Zone High-NRC

Acoustical enhancements to address speech privacy and HCAHPS in Healthcare

- NEW** ■ Ultima Health Zone, still water-repellent, scrubbable, and washable, now has even stronger acoustics with a three point CAC increase to 38
- Ultima Health Zone High-NRC meets the demand for excellent durability and superb acoustical performance with an NRC of 0.80

Prelude® XL Max™ 15/16" suspension system with Ultima® 24" x 24" panels

DATA CENTER Ceiling Systems

Prelude® XL Max™ suspension system for maximum air flow management, load carrying capacity, and adaptability

- Supports single point loads up to 200 lbs. using 3/8" threaded rod and integrated hanging clips
- Provides flexible and reconfigurable overhead cable tray and electrical distribution without a separate strut channel system
- Eliminates unsightly threaded rod penetrations through the ceiling plane to reduce unwanted air infiltration and improve plenum access and aesthetics
- Meets ASTM C635, ASTM C636, ASTM E580, ICC-ES AC156 with Seismic D, E, F installation available
- 30-Year Limited System Warranty
